Bumble Bee Page Wireframes

- Includes main frame content (no header, footer, or sidebar)
- Filled boxes with X's represent images
- Outlined, unfilled boxes represent text areas
- Most text areas are filled with placeholder text, though areas with already determined content are filled in.
- Text area size is subject to change dependent upon content needs
- Extra boxes can easily be added to any page.
- Wireframes use Helvetica Neue; site uses Raleway

Near Threatened

Additional Species

Status	Scientific Name	Common Name	Description

This page will not be promoted until there is a sign-off from partners!

This block will contain more text (and graphics) for Rich's assessment

- Each species has a photo attached

- Ultimately, 17 species will appear on the spectrum

- The other species could potentially appear in a smaller table below with information

- Species information will include link to Xerces' resources where applicable (Wanted posters, ID guides, species pages), and also to Bumble Bee Watch pages.

- Table headers/header order can be changed. More rows added as needed.
